Programming guide

1. Launch Arduino software.
2. Open file that you would like to upload (File > Open)
3. Select serial port for the ALog (Tools > Port)
4. Check that the board is right (Tools > Board)
5. Click the right-arrow "upload" button. Watch lights blink.
6. Open serial monitor (top right button). Check text.
7. Syncopated flash? Clock isn't set. Run "ALogClockSet.py"
8. LOOOONG short short? Logger is recording data.
